| 11 | Metropolitan Research Institute Budapest, Hungary | Researcher | Involvement in projects and trainings of Local and Regional Economic Development, Urban Renewal and Rehabilitation |

12. Key Qualifications, expertise: (Relevant to the programme)

Éva Gerőházi has eleven years of experience in research and consultancy in the field of regional and local economic development, housing policy and urban renewal. She has worked in several international projects in the European Commission 5th and 6th Framework research programs and has been assisting the Budapest Municipality and several Hungarian state level ministries and local governments in policy and program development. She has been conducting research on issues about social housing reconstruction and rehabilitation, suburbanisation and urban and regional development. She carried out special surveys on evaluating the social and living conditions of run down urban areas. She prepared feasibility studies of socially sensitive urban regeneration programmes in Hungarian cities.

She has consulted the development of several local development strategies in Hungary, among them the Budapest municipality and several districts. She was one of the trainers for the state level intergrative settlement rehabilitation programs launched in 2008. She took part in technical assistance programs in Hungary organized for foreign experts in the topics of local economic development (Albania and Kosovo), and housing policy (Bosnia and Herzegovina).
